tech teamz
We create, build, and manage
engineering teams for our partners
and hire them to work as extensions
of their R&D departments.

OUR SOLUTION

Tech Teamz is an eTeams company.
We create, build, and manage engineering teams for you by hiring the engineers you need to work with as an extension of your R&D department.
eTeams is our response to address the skill shortage and improve employee retention in the engineering field.

Engineered by you in collaboration with Tech Teamz.

02

BENEFITS

- Lower costs, and qualified talent.
- We cover associated risks and responsibilities.
- Create your custom-built team and focus solely on the technical part.
- Engineers sourced and hired exclusively for you.
- Various levels of expertise.
- Workforce planning and identification of key areas of expertise.
- Highly specialized Electronics R&D engineers and contractors.
- Flexible teams and leadership know-how.

HOW WE WORK

03

1- IDENTIFY YOUR NEEDS:
Share the specific skills, seniority and field of expertise you require. We will provide you with a selection of profiles that match your requirements.

2- TAILORED PROPOSAL:
Your allocated Account Manager will send you a detailed proposal, including CVs and pricing for the engineers at each level required, so you can make the final selection.

3- AGREEMENT:
Once you accept the proposal, we will sign a Master Agreement, formalizing our partnership.

4- TEAM INTEGRATION:
The chosen Team Leader integrates seamlessly with your R&D department and assists in building, managing, and expanding your engineering team as needed.

5- SCALABLE GROWTH:
Expand your team without limits, building new teams under the same Master Agreement, with the continuous support of Tech Teamz.

6- Tech Teamz will act as an extension of your internal team. We can join project planning or Scrum meetings remotely with the possibility of being on-site if needed.

OUR SERVICES

RIGHTS & OWNERSHIP:
All ownership rights and IP remain your property and are protected under NDAs with us and the engineer, on both sides.

INVOICE & PAYMENT:
Monthly invoicing based on actual time worked (day/half day).
Payment Terms: 30 days (net)

SECURITY & NON-DISCLOSURE AGREEMENT:
Tech Teamz and all our engineers will sign an NDA directly with our partner. Tech Teamz agrees to comply with the partner's security standards and processes.
